Good, Clean FUN

If you're like most people, you hardly have room to think in your garage – much less park your car! Spending your next sunshine-filled weekend cleaning out your garage is probably the last thing you want to be doing.

You are not alone. In fact, the U.S. Department of Energy reports that 25% of homeowners with two-car garages don't park ANY cars in their garage and another 32% only have room for ONE car! A Harris Survey reveals that half of all homeowners rate their garage as the single most disorganized room in the house . . . Yikes!!!

Don't panic! A quick call to GarageTek can make the task of cleaning out the garage take on a fun and lively HGTV bent! Their staff empties your garage for you, sorting as they go. One pile for things to "keep", one for items you plan to "donate" and one for items that can be recycled or "trashed". Disclaimer: Thighmasters and those rollerblades that you haven't used in 10 years automatically go in the "donate" or "trash" pile!

Next, the GarageTek team installs a customized, easy-to-clean organization system that suits your unique needs. This system starts with the patented TekPanel wall covering that allows you to add snap-

in bike and golf racks, shelving, baskets, cabinets and more. This makes it "a snap" to rearrange as your family's needs change. Then they add flooring, ceiling, workbench and lighting options if you so desire.

Once everything is installed, GarageTek's staff schleps the "keep" pile back inside, organizing everything and assigning it a permanent home. Well, nothing's permanent with GarageTek. Having a home for all of your things means you'll never spend another Saturday cleaning out your garage. Imagine relaxing poolside, a vacation, a nap on the couch – you pick your pleasure!

But the pros aren't done! The folks at GarageTek are such cleanup rockstars that they will haul your "donate" pile to a charitable organization and send you the receipt for tax time.

The takeaway? This spring, the only finger you have to lift for a spotless garage is the one you use to dial your phone. GarageTek takes care of the rest. Now that's good clean fun!❖
